

# **HIGH SCHOOL SCIENCE LABORATORY EQUIPMENT NEEDED!!!**

## **FRIENDS OF SCIENCE EDUCATION** sponsored by the **Richland School District Foundation**

The mission of the Friends of Science Education is to ensure that Richland Center High School students receive an excellent education in science.

The first goal of the Friends of Science Education is to obtain modern equipment for the chemistry and physics laboratories. Students need to do experiments in order to maximize their knowledge of all science, including chemistry and physics. A thorough review of the best and most current methods in teaching science has been completed. Based on the results of this research, we need to raise \$50,000 to fully equip our laboratories. School budgets are very lean so all donations are deeply appreciated. Every dollar received will be used for the purchase of equipment used by students in the classroom laboratories, and every dollar is deeply appreciated and makes a difference.

**Become a Friend of Science Education!! Donations may be made to the Richland School District Foundation, specifying Friends of Science Education (FOSE) in the comment line of a check. Thank you for helping our students get the best science education possible! Please send your tax deductible checks to:**
