MAKE PLANS FOR WINTER WEATHER

Richland School District officials would like to remind everyone of the procedures when there is difficult winter weather. The decision to delay and/or close school is taken very seriously. It includes gathering information from a variety of sources, such as Weather Central, the Richland County Highway Department, Richland Center Bus Company and other individuals throughout the county. Changes in the school schedules are announced on the following stations:

WRCO Radio
WISC 3 TV
WKOW 27 TV
WMTV 15 TV

Parents are encouraged to have emergency weather forms updated in the schools so school officials contact the proper person if necessary. Also, parents should talk with their children so all family members are familiar with their alternative weather plan.

“We try to make the decision before 6:00 am in the morning and before 1:00 pm in the afternoon so families can make plans,” said Rachel Schultz, District Administrator. “For the fastest most current information, listen to WRCO AM/FM Radio. We call there first, then follow up with the television stations.” Schultz continued, “winter weather can be a challenge, and our primary concern is for the safety of the children. We appreciate everyone working together to help make this a safe winter season.”
